ABOUT ME

Passionate about coding and experienced in making beautiful Ui and providing great Ux to the users.

WORK EXPERIENCE

JUL 2022 - Present (Part-Time)

Frontend Web Developer (At coder valley solution)

- Developed couple of Basic projects for getting more experience with my skills.
- Skills that I used : Next.js, Redux.js, React.js, JavaScript, TypeScript, GreenSock Animation Platform (GSAP)

PROJECTS

FAAL (Freelancing)

It was a freelancing project, In which I made one pre-registration of the new upcoming technology for the company and landing page kind of site. In the project I used Next.js,, Tailwind CSS, Material UI for front end and Node.js in next framwork and MySQL as back end and data base.
Site: https://faal.co.in/

Super Market

I made this site in Next.js, Tailwind CSS, Material UI and redux as state management tool. This site was e-commerce site. I develop each and every features that e-commerce site provides.
Site: https://super-market-project.netlify.app/

Split Payment System

This was the project about splitting bills in the group. The front end was developed by me in next.js with tailwindcss and the back end was developed by my friend in Django.
